Introducing the All New...

2006 HONDA DYSSEY

"It's not a minivan... It's an Odyssey."

The all-new 2006 Odyssey redefines just how good a minivan can be. Engineered to drive like a European luxury sedan, the 244-horsepower Odyssey excels in ride quality, comfort and handling. The engine is packed with the latest innovative Honda engineering, so you get high power with efficiency, economy and lower emissions. New safety features include Vehicle Stability Assist (VSA®), a new feature that enhances stability by detecting oversteer or understeer. The Odyssey's highly adaptable interior includes a stowable 2nd-row PlusOne Seat™ that allows seating for eight (EX), and one-motion 60/40-split 3rd-row Magic Seat® that makes cargo loading even easier. You can even entertain passengers with the Honda DVD Entertainment System with remote control, 9" screen, and personal surround sound headsets. And with the new Michelin® PAX® System on the Touring model, you can travel on a punctured tire at 50 mph for up to 125 miles. Discover new levels of confidence while navigating through an uncertain world.

One glance at the all-new 2006 Odyssey and you'll be captivated by its redesigned look. Sporting a bolder, more aggressive front end, brilliant new headlights and a power moonroof (EX with Leather, Touring), the Odyssey is equipped with convenient new features like a power tailgate (Touring) and power sliding doors (EX) with roll-down windows. Plus, you'll enjoy a quieter ride thanks to improved aerodynamics. And when you arrive at your destination, the parking sensors (Touring) will help guide you into those tight spots with the greatest of ease.

Comfort and function were among our foremost concerns when we designed the interior of the all-new Odyssey. So we included an available Honda Satellite-Linked Navigation System™ with voice recognition (EX with Leather, Touring), DVD rear entertainment system (EX with Leather, Touring) and steering wheel-mounted controls (most models). Passengers can sit back and relax in the luxurious, deeply padded 2nd-row seats. The one-motion 60/40 split 3rd-row Magic Seat® folds flat into the floor, making cargo loading easy. And with the removable 2nd-row PlusOne Seat™ (EX models) and in-floor Lazy Susan (most models), you'll have plenty of ingenious storage options to hold everyone's essentials.

Odyssey safety is fortified with a host of standard features on all trims like anti-lock braking (ABS) with a new brake-assist feature, Vehicle Stability Assist (VSA®), front 3-point seat belts with pretensioners, and Lower Anchors and Tethers for Children (LATCH) system for easy installation of compatible child seats. Also standard are front airbags, front side airbags and 3-row side curtain airbags with a rollover sensor. The dual-stage, dual-threshold front airbags deploy at one of two rates and thresholds, depending on the severity of impact and seat-belt use. Sensors prevent the deployment of the passenger's side airbag if a child or small adult is in the airbag's deployment path. Honda's Advanced Compatibility Engineering™ (ACE™) body structure incorporates a front-end frame structure that absorbs and disperses crash energy over a larger area. ACE™ increases Odyssey passenger protection, and makes it more crash-compatible with vehicles of differing ride heights. Plus, the new Odyssey is targeted to achieve top crash-test ratings from the National Highway Traffic Safety Administration (NHTSA). 5 year 60,000 power train warranty.
